

## CONVENTION ISSUES REMAIN UNSOLVED

### ORGANIZATION NOW PERFECTED

Delegates Plan to Hear Nominating Speeches Today As Platform Is Being Framed

### WOMEN SCORE VICTORY

National Committee Doubled to Give Them Representation—Convention Denies Reed Seat

San Francisco, June 29. — In its second day's session, the Democratic National convention perfected its organization and got ready for business. It will assemble again tomorrow morning at 11 o'clock with the plans laid for beginning the nominating speeches for candidates.

The convention affirmed the action of the credentials committee in denying a seat to Senator Reed of Missouri and in seating the Palmer delegates from Georgia over the contest of the Smith-Watson faction.

#### To Hear Nominating Speeches.

Then it affirmed the plan to hear nominating speeches delivered while the platform committee is working on the party declaration of principles, but providing that no nominating speech be heard until after the platform has been presented and adopted. The convention, after some delay because of a misunderstanding of terms, finally adopted the national committee's resolution to double the membership of the committee and give the additional places to women—one from each state. The resolution had got into the tortuous ways of parliamentary practice, which was sending it back to committee when National Chairman Cummings saved it by an explanation of its terms.

If the Democratic party is in earnest about this business of taking women into its party councils," said Mr. Cummings, "let it adopt this resolution and adopt it now." The resolution then went through. Senator Robinson's speech as permanent chairman was devoted almost entirely to an arraignment of the Republican platform and a defense of the administration's conduct of government affairs, particularly President Wilson's course in negotiating the peace treaty and the League of Nations covenant.

One of the surprises of the day's proceedings was the adoption of a resolution which permits the breaking of the unit rule in New York without any protest from the delegation from that state. It passed without a dissenting vote on recommendation of the rules committee.

#### The Day at Convention.

Vigorous whacking of the gavel brought the delegates down to their seats and gradually cleared the aisles. Mr. Cummings was determined to get order quickly and succeeded.

"I present greetings to the untarnished Democracy of America," said Mr. Cummings as soon as he could be heard. Bishop L. W. Leonard, of the Methodist Episcopal church of San Francisco, offered the prayer.

Sentinel Robinson got steady response from his audience, which warmed up as he proceeded and gave him one demonstration after another, each succeeding the preceding one in volume as he scored the Republicans of the state for their course toward the peace treaty and the league of nations. He referred to the fact that President Wilson had been assailed for not taking some Republican senators with him on the American peace mission to Paris.

"If they could not have shown any more capacity and ability in negotiating the treaty than they have shown in their consideration of it," he shouted, "then Almighty God bless Woodrow Wilson for not taking them along to Europe!"

It was a bull's eye shot and the audience acknowledged the hit by rising and going in for a succession of cheers.

"Hit 'em some more," shouted voices from the galleries and the delegates.

Three Cheers for "Joc."

Robinson wound up with a league of nations peroration that brought the

### To Place McAdoo in Nomination "At the Earliest Opportunity"

San Francisco, June 29. — The name of William Gibbs McAdoo, former secretary of the treasury, will be placed formally in nomination at the convention "at the earliest opportunity," his supporters decided at an early morning conference today. Presentation of McAdoo's name will be made by Burrus A. Jenkins, a Kansas City minister.

In confirming the persistent rumors that McAdoo's name would go before the convention, Samuel B. Amblin, Kansas national committeeman and floor leader for the McAdoo forces, declared the former secretary's friends had decided to yield to the thousands upon thousands of letters, telegrams and personal calls urging the nomination. There was no way to avoid votes being cast for McAdoo, he said, and therefore it was decided "that the strength might as well be bunched."

Confirmation of the report of the decision to nominate McAdoo came just ahead of the opening of the second day's session of the convention and McAdoo workers immediately began "passing the word along" to those who they knew were in accord with the plan. The effect of the announcement, however, has not yet had time to develop, but it was apparent that every effort was to be bent in the direction of advising individual delegates of the program and ascertaining the strength of the vote before any ballots are cast.

Noting for a presidential nominee could proceed until after the party platform had been presented and adopted.

There was no opposition to that order of business, and the report was adopted. Nominating speeches were limited to 20 minutes and seconding speeches were limited to ten minutes and are not to exceed five in number.

The resolution which permits the breaking of the unit rule in New York and some other states was presented by the chairman of the rules committee and with scattering "noes" it was adopted. An expected fight from the New York delegation on the issue did not materialize.

A resolution of thanks to the people of San Francisco for their hospitality was adopted.

#### Would Limit Representation.

Representative Flood of Virginia offered a resolution to direct the national committee to limit representation in the next national convention to the same basis as representation in congress. It proposes to include delegates from the Panama canal zone with the delegates from the other territories.

The resolution was long and involved few of the delegates understanding it and there were many seconds to a motion to refer the resolution to the resolutions committee. The ayes and noes were both loud and a rising vote was called for.

Confusion followed, and the resolution was ordered read again. It finally passed on an aye and no vote. It was merely a resolution to provide for the next convention.

Mrs. Alice Foster McCulloch of Fort Wayne, Ind., the first woman to be heard in the convention, offered the prepared resolution to double the size of the Democratic National committee and make a place for one woman from each state. The resolution had previously been approved by the national committee. A Pennsylvania delegate moved that the resolution go back to the resolutions committee, and got several seconds. The ayes got it by the chair's decision.

A point of order also was made against it, which was sustained by the chair, and the resolution went back to the committee.

What the second session lacked in the dramatic fire of the opening day, it made up in the smoothly-working control which administration supporters exercised. Anti-Wilson contests, such as that of Senator Reed of Missouri for a place on the floor, were swept away with ruthless but good natured haste. Even the boos and hisses which greeted mention of Senator Reed's name were in a tone of humorous ridicule.

The announcement of "unanimous votes" delivered by the chairman against a feeble chorus of noes here and there never failed to bring cheers and laughter from the masses of delegates.

#### Great Crowd Fills Auditorium.

The great auditorium was filled with even a greater crowd today than yesterday. There was no vacant seat in the impressive sweep of the galleries, rising steeply in walls of faces on three sides of the floor. Long before the day's business could proceed, the hubbub of conversation rumbled and mumbled a steady undertone to the music of the organ.

Boomers of Attorney General Palmer or Governor Cox took lively if not impetuous parts in the entertainment features.

Sentinel Robinson had a little difficulty keeping the machine going at the pace Mr. Cummings had set. There was a little confusion on parliamentary procedure at times, and once Mr. Cummings intervened to straighten out a resolution to perfect the convention's plans to give women full and

### OPEN WARFARE IN COMMITTEE

Prohibition, Irish Question, and Other Troublesome Problems, Are Center of Battle

### BRYAN DRYS DEFEATED

Parliamentary Clash in Platform Committee Is Decided in Favor of the Wets

San Francisco, June 29.—Open warfare over prohibition, the Irish question, and other troublesome issues of the Democratic platform, began today in a storm-swept committee hearing, while in private the leaders continued their negotiations for a settlement to keep the hostilities from spreading later to the floor of the convention, and there were no surface indications that their task had been made any simpler by the day's public arguments or private consultations.

A momentary defeat was administered the Bryan dry legion in full platform committee when a parliamentary battle for position on the speaker's list was decided in favor of the wets by a vote of 27 to 25. The general inclination, however, was to discount the significance of the vote, which was taken to decide which side should speak first.

In the skirmish, both wets and drys argued that their opponents were trying to reopen the prohibition issue and therefore should present their case first. When the drys were forced to go ahead, Mr. Bryan took charge of the time allotted to that side, but divided all of it among other speakers representing the "Anti-Saloon league. He denied that he ever had received compensation from the league, except for "four months of last year, for certain public speeches."

#### Big Fight Over Ireland.

The Irish issue was argued in such militant fashion that the crowded committee room was in almost constant uproar. Opponents of the proposal for recognition of the Irish republic were kept under a hail of heckling and derision from Irish sympathizers and once or twice were called short with ugly words while the committee chairman pounded unheeded with his gavel and sergeants-at-arms tussled with the crowd in an ineffectual effort to keep order.

The argument for the Irish recognition platform was led by Frank P. Walsh, and the opposition was handled by Damarest Lloyd, of Boston, president of the Loyal Coalition.

Labor's platform was presented to the committee by Samuel Gompers, who declared the Republican party had written reaction on its banners and that the labor vote must find some avenue elsewhere for expression of its desires.

The league of nations, another subject threatening a convention floor fight, was not mentioned during the day's hearings, but there were many suggestions on almost every other political subject, prolonging the committee's deliberations into the evening.

#### Anti-Saloon League's Platform.

New York, June 29.—Repeal of the "nullification" beer act supported by certain wet Republicans and Tammany leaders, and passage of a measure by the legislature "substantially identical with the federal enforcement act," were characterized by the board of trustees of the Anti-Saloon League of New York, at its annual meeting here today, as leading issues in the league's campaign of "political action."

Every supporter of prohibition was urged by the board to "refuse to vote for any candidate for either house of the New York legislature, or for governor, who will not unqualifiedly declare himself in favor of such repeal and such enactment."

#### ARCHBISHOP HAYES PREACHES.

New York, June 29. — Archbishop Patrick J. Hayes today vigorously arraigned the "modern tendency" toward secularism, federal centralization and socialism in education, in a sermon at the solemn high mass which opened the seventeenth annual convention of the Catholic Educational

### BAPTIST CONVENTION CLOSES

Delegates Refuse to Censure Parsons Who Married Douglas Fairbanks and Mary Pickford.

Buffalo, June 29. — The thirteenth Baptist northern convention closed today with the election of officers and adoption of resolutions covering a wide range of subjects.

By a vote of 696 to 422, the delegates refused to censure the Rev. J. W. Braugher of Los Angeles for marrying Douglas Fairbanks and Mary Pickford by dropping him as a member of the executive committee, but adopted a resolution urging more uniform divorce laws to do away with the "scandal of easy divorce states."

The resolution also urged the Baptist ministry to "hold rigidly to the scriptural standards regarding divorce," and that they carefully avoid any action that would weaken the influence of minister and church in regard to this menace to all the church seeks to promote.

Another resolution called upon federal government officials to be scrupulously fair in their treatment of Orientals in this country. "We protest," the resolution read, "against any effort of any part of the nation to discriminate against or unfairly legislate against Oriental peoples."

The convention refused to approve a portion of the report of the social service committee which condemned compulsory military training and voted to refer it back to the committee.

### WOULD BOOST PASSENGER FARE

Electric Railways Cannot Survive When Increase Is Permitted Only in Freight Rates, L. C. G. Is Told.

Washington, June 29.—Increase of passenger fares, as well as freight rates, to permit railroads and electric lines to operate both branches of their service at a profit was urged today before the Interstate Commerce commission by Clifford Thorne of Chicago, representing shippers, and Charles L. Henry of Indianapolis, chairman of the American Electric Railway association. Their pleas for higher passenger rates brought that phase of the revenue question to the fore for the first time since the rate hearings began.

Mr. Thorne advised a five percent increase in passenger fares for the railroads, while Mr. Henry contended that traction lines with freight making up only a small portion of their business could not absorb passenger losses if an increase is allowed in freight rates only.

"If electric lines are to live," Mr. Henry added, "they must have a profitable passenger business." Sixty percent of the electric lines in the country, he asserted, derive from 60 percent to 85 percent of their revenue from passenger business. The committee should construe the transportation act so that one class of transportation is not benefited to the injury of another.

### INVESTIGATE THEORY ELWELL WAS SLAIN BY "BOOTLEGGER"

New York, June 29. — Federal agents today inquired at the district attorney's office concerning the theory issuing from there that Joseph B. Elwell, wealthy turfman and whist expert, murdered in his home here June 11, may have been killed by a "bootlegger" with whom he had fallen out over unpaid bills for illicit liquor.

Two representatives of James E. Shevlin, federal prohibition enforcement agent from this district, were told by Assistant District Attorney Talley that he had gotten the story from a newspaper reporter and was investigating it.

The report was that Elwell had entered into a deal to take over a whiskey consignment of \$12,700. William Barnes, Elwell's secretary, denied that the slain turfman had participated in any such enterprises.

### ACRES OF CROPS DAMAGED IN STORM NEAR SYRACUSE

Syracuse, June 29.—Two men were injured, two big barns were wrecked, acres of valuable crops damaged or ruined, and telephone communication interrupted for a time, by a miniature cyclone, which ripped a path through the north of the city late today. The damage is estimated at \$150,000.

Eugene Renbrek of Massena Springs and Charles Tyler of this city were hurt when a large stock barn on a nearby farm was blown down by the storm. Two horses and six cattle were burned to death when a fire set by lightning destroyed two barns at Warner.

### REDUCE PRICE OF COLLARS.

Troy, June 29. — The price of collars will be reduced to 25 cents each, according to announcement made here today by Cluett, Peabody & Co., and George P. Ide and Co., two of the biggest manufacturing plants in the

### Officials Responsible For Bergdoll Escape Indicted

Philadelphia, June 29.—A special grand jury today returned indictments against eight persons as a result of the investigation into the flight of Grover Cleveland Bergdoll, army deserter.

It also submitted a report concerning P. Clarence Giboney of this city and Samuel T. Ansell and Edward S. Bailey of Washington. Bergdoll's counsel, for gross carelessness, recommended court martial for Major Hunt, in command of the barracks at Governors Island, from which Bergdoll was released to obtain his buried treasure, and for the two army sergeants, from whom he escaped. Bench warrants were issued by Judge Thompson for four persons, whose whereabouts are unknown.

### WOULD OPERATE ROADS OF COUNTRY "AS UNIT"

Federal Trade Commissioner Says This Is Only Way to Relieve Transportation Difficulties

Washington, June 29. — Operation of the railroads of the country "as a unit," as a means of relieving the present transportation difficulties, was suggested today by William B. Colver, of the Federal Trade commission, in an address before the Washington Ad Club.

Mr. Colver predicted that a continuation of the present situation would mean "untold suffering and industrial shutdowns next winter." Hundreds of millions of dollars are tied up now in merchandise in side-tracked cars, he said, keeping from the market badly needed capital.

Only one-tenth of the needed coal for next winter's supply has been moved to the head of the lakes, he said, while the industries in New England are actually closing down for lack of coal. Farmers also are unable to obtain cars to move the residue of last year's wheat crop at a time when the new crop is coming to harvest. Already, he declared, there are predictions of \$25 flour and 25 cent bread.

Mr. Colver declared there were plenty of coal cars, but that the roads were unable to get them to the mines, with a result that this month, coal production is far below normal and miners, in spite of high wages normally received, are seeing "their families go hungry."

When operated separately, he asserted, even the largest railroad cannot operate profitably and at reasonable rates if it has to supply motive power and equipment capable of taking care of the peak load which comes each year, but at varying seasons for the individual roads.

### THREE KILLED, TEN INJURED, AS BUFFALO HOTEL COLLAPSES

Buffalo, June 29. — Three men were killed and ten were injured in the collapse of the four-story Sutherland hotel in Love Main street today. Andrew Burns, a clerk, is missing and is believed to have been killed.

The known dead are John Hennessey, John Carroll and Patrick Eagen, laborers.

The city fire chief and fire underwriters, after examining the ruins, were inclined to the belief that the fall of the building was due to a gas explosion. The absence of any sign of fire was the puzzling feature. The building was one of the oldest in the waterfront district.

### SIX THOUSAND MINERS IN SOUTH ORDERED TO STRIKE

Charleston, W. Va., June 29.—Six thousand union miners in Mingo county, West Virginia, and Pike county, Kentucky, were today ordered by district headquarters of the United Mine Workers here to refrain from reporting for work tomorrow. Issuance of the strike order, District President C. P. Kenney announced, followed the refusal of the Williamson Coal Operators' association to treat with the miners.

### WILL HARDING KNOW HOME?

Marion, Ohio, June 29. — Senator Harding may not know his home town when he arrives to receive the acclaim of his old friends and neighbors at the home coming celebration next Monday.

Practically every business block in the city has been painted or is undergoing repair and the city council has paved the way for many city improvements.

By next Monday, it is expected to have the two 100-foot train sheds at the union station nearly completed.

## HARDING URGES PRESERVATION OF AMERICANISM

Gives First Campaign Speech in Form of Phonograph Record

### U. S. SHUNS NO DUTY

But It Requires No Council of Foreign Powers to Point Out Its Way, He Asserts

Washington, June 29. — Declaring the nation "requires no council of foreign powers to point the way to American duty," Senator Harding, Republican nominee for President, in his first campaign speech, today urged the preservation of Americanism as the first and highest endeavor of all citizens of the republic.

The candidate's first utterance of the campaign was heard by no audience today, being made for a phonographic record to be released on the fourth of July and to be used through the campaign. A copy of the senator's address was made public at his office and with it a speech made last week by Governor Coolidge of Massachusetts, the party's Vice Presidential nominee, for a similar purpose.

Senator Harding chose "Americanism" as his subject, while Governor Coolidge spoke on "Law and Order."

#### C. S. Won't Hold Aloof.

America, Mr. Harding said, does not mean to hold aloof, chooses no isolation, and shuns no duty, but, he continued, "we arrogate to ourselves the keeping of the American continent and every concept of our moral obligations." The Presidential candidate added that "it is very practical to make sure our own house is in perfect order before we attempt the miracle of Old World stabilization."

In urging maintenance of law and order, Governor Coolidge defined the needs of America as "a broader, firmer, deeper faith in people—a faith that men desire to do right; that the government is founded upon righteousness which will endure."

"Americanism really began when robed in nationality," said Senator Harding. "The American republic became the blazed trail of representative popular government. Representative democracy was proclaimed the safe agency of highest human freedom. America headed the forward procession of civil, human and religious liberty which ultimately will effect the liberation of all mankind. The federal constitution is the very base of all Americanism, the ark of the covenant of American liberty, the very temple of equal rights. The constitution does abide, and ever will so long as the republic survives."

"Let us hesitate before we surrender the nationality which is the very soul of highest Americanism. This republic has never failed humanity nor endangered civilization."

#### Our Great Part in War.

"We have been tardy sometimes like we were proclaiming democracy and neutrality while we ignored our national rights, but the ultimate and helpful part we played in the great war will be the pride of America so long as the world recites the story."

"We do not mean to hold aloof, we choose no isolation, we shun no duty. I like to rejoice in an American conscience, in a big conception of our obligations to liberty, justice and civilization."

"It is fine to idealize, but it is very practical to make sure our own house is in perfect order before we attempt the miracle of Old World stabilization."

"Call it the selfishness of nationality if you will, I think it an inspiration to patriotic devotion."

"To safeguard America first.  
"To stabilize America first.  
"To prosper America first.  
"To think of America first.  
"To exalt America first.  
"To live for, and revere, America first."

"Let the internationalists dream and the Bolsheviks destroy. God pity him for whom no misdeed raptures swell." In the spirit of the republic, we proclaim Americanism and acclaim America!"

#### U. S. Must Be True to Self.

"The first duty of a government is to be true to itself," said Governor Coolidge. "This does not mean perfection. It means a plan to strive for perfection. It means loyalty to ideals. The ideals of America were set out in the declaration of independence and adopted in the constitution. They did not represent perfection attained but perfection planned. The fundamental principle was freedom. The fathers knew this was not yet apprehended. They formed a government firm in faith that it was over to press forward to this high mark.  
"In selfishness in greed, in lust for

## ANOTHER VERY DULL DAY

Business on Stock Exchange Yesterday Without Parallel in Point of General Unimportance in Almost 18 Months.

New York, June 29. — Business on the stock exchange today was without parallel in point of dullness and general unimportance in almost 18 months. Financial transactions of about 250,000 shares were the smallest of any full session since December of 1918.

Standard shares were alternately irregular to firm, a steady tone prevailing at the close in short covering in rails, steels and oils.

Moderate withdrawal of funds by local banks for federal payments, and preliminary shifting of deposits in anticipation of July interest and dividend disbursements, were reflected in lighter time rates.

Statements of earnings for May embraced some of the more important railroad systems. These were rather mixed, however. Southern Pacific, for example, showing a large gain in net, while Atchafalpa and Missouri Pacific reported heavy losses.

Trading in bonds was relatively large, the general domestic list, including Liberty issues, again easing. Old U. S. bonds were unchanged on call.

## MORE HORKE VINO VICTIMS.

Four Men Face Judge Huntington in City Court; Two Sent to Jail.

Monday morning saw four men brought before Judge Huntington in city court on charges of public intoxication. All were given sentences that should make them think twice before they again indulge in the wiles of Horke Vino.

Tony Kolchsky was assessed \$10 by the judge. He was arrested early Monday morning on West Broadway by Patrolmen Simmons and Brownell, who found him making a general nuisance of himself and wanting to show how well he could fight. He was soon calmed down, however, and consented to "a long" with the policemen. He was arraigned on charges of assault and public intoxication.

Paul Kolgan, who was arrested by the same patrolmen on Fonda avenue, was sentenced to the county jail at Cooperstown for 30 days. He, too, was charged with public intoxication and pleaded guilty.

Warren Dingman, an old offender, who was arrested Sunday night by Patrolman Cross near the gas house, was sentenced to 30 days at Cooperstown and is already serving his term there. He seems unable to keep away from the flowing bowl and Judge Huntington hopes that the month in jail will be of benefit to him.

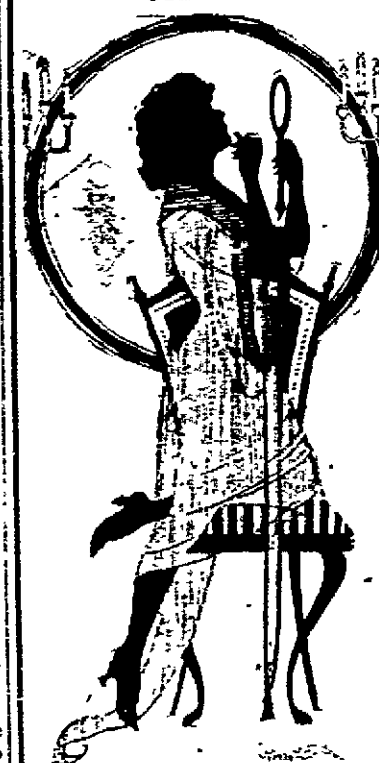

George Leroy of Gilboa, who as told in last Saturday's Star was "caught with the goods on," pleaded guilty to a charge of public intoxication and was fined \$5, which he paid. He was also sentenced to 30 days in the county jail, but this was suspended on condition of good behavior. The case of beer which was found in Leroy's wagon was confiscated.

## ONE KILLED IN AUTO WRECK.

Scranton, Pa., June 27. — A touring car driven by John Hultz of Elmira skidded and crashed into a telephone pole here this evening, killing Mrs. Horace Robinson of Galeton, Pa., and painfully injuring the other five occupants of the car.

Some people are geniuses. One occasionally finds a cook who can make perfect desserts without Baker's certified favoring extracts.

IRISH PLANS REJECTED.  
London, June 28. — With a view to forcing the government to disclose its complete financial proposals for Ireland, the opposition leaders in the house of commons today moved amendments, seeking postponement of the clause in the home rule bill repealing the 1914 act. The amendments, however, were rejected.

RESOLUTE WELL PREPARED.  
Boston, June 29. — When Resolute meets Shamrock IV in defense of America's cup next month, she will present the best combination of crew and equipment drawn in part from the Vanitie, her rival, for defense honors.

It was announced today that Rear Commodore George Nichols of the New York yacht club, skipper of the Vanitie in the trial races, would join Resolute's after deck staff as navigator, in place of Lieutenant Arthur Adams of Boston.

ALL SAVED WHEN SHIP SINKS.  
Stockholm, June 29. — All the 2,000 war prisoners on board a Bolshevik steamer which sank recently in the Nera river were saved, according to a dispatch to "The Dagblad" from Helsingfors, Finland.

There was only one way to enter the cellar, to use the key and return it to the place where it was found. — Mrs. Gertrude Wagar and lady friend of Oneonta were visitors of Mrs. Wagar's daughter, Mrs. Claude Tripp, on Sunday. Mrs. Emerett Tripp also spent the day there. — F. DeLong and wife, Mr. and Mrs. J. W. Moffatt and son, Jack, attended the Sunday afternoon gathering at the home of Mrs. W. T. Hyde, given in the interest of the Society for the Prevention of Cruelty to Animals, of which Mrs. Hyde is county officer.

## CANOE UP THE SUSQUEHANNA.

Wells Bridge Villagers Interested in Doling of Pennsylvania Yachts.

Wells Bridge, June 29. — Last Saturday noon, two men with a touring car bearing a Pennsylvania license plate were in town making inquiries as to the whereabouts of three young men they said had taken their canoe from its mooring place near Susquehanna, Pa., and disappeared with it. They said they had been able to trace the party as far up the river as Unadilla, and were seeking to locate them near Wells Bridge. As no one here had been the canoe party, the two men left their car here and started walking down the river bank toward Unadilla. When near the John Youmans farm, they espied three young men with two canoes coming up the stream.

The canoes were stopped and were brought ashore and stored in one of Youmans' buildings. Then the entire party returned to the village and left for Pennsylvania in the auto.

Sunday afternoon, the three young men again appeared at Youmans' place and took one of the canoes, saying they had paid \$36 to the owners and had been given consent to take the canoe. The trio then took to the water and continued their trip up the river with Cooperstown as their destination. Villagers have heard of many parties going down the river, but this is the first time anyone has ever been known to make the trip up the river to its source.

## Local News Notes.

Trueman and family of Bainbridge called on friends in this vicinity on Sunday afternoon. — Haying will soon begin; the grass crop this year is fair. — An ice cream social will be held on Thursday evening at the home of Mr. and Mrs. Ira Moore. All are invited. — Plans are being made for the annual Field Day exercises. — Misses Elizabeth and Thelma Hungerford went to Schoharie Sunday, where they will spend part of their summer vacation visiting relatives.

## GALER-HILLIS WEDDINGS.

Popular South Worcester Couple United in Marriage Thursday.

Worcester, June 29. — Last Thursday evening, at 8 o'clock, Howard Van Galer, son of Mr. and Mrs. Oscar Galer of this village, was united in marriage to Nellie Elizabeth Hillis, oldest daughter of Mr. and Mrs. Arthur W. Hillis of South Worcester at the bride's home. The ceremony was performed by Rev. P. M. Willis of Charlottetown, in the presence of the immediate family and a few intimate friends. They were attended by Miss Pearl Hillis sister of the bride, and Clayton Nichols of Oneonta. Both bride and groom are graduates of the Worcester high school, being members of the class of 1917. The bride is also a graduate of Schenectady training class and has been a successful teacher since. The groom was a student at Union college at Schenectady, preparing for war service when peace was made. He is now a mail carrier on route No. 3. After a short wedding trip to New York they will make this village their home.

## Junior Exercises Please.

The Junior exercises held at the Wesleyan last Wednesday evening have been highly spoken of. The program showed much work on the part of the students.

A debate "Resolved, that the future policy of the United States should be further military preparedness rather than the limitation of armaments," was decided in favor of the negative side. The sketch "Madame Princeton's Temple Beauty" was given. The program ended with the class song.

## Other Commencement Activities.

The graduating exercises of the High school were held last Thursday evening in the Opera house. The stage was decorated in the class colors, violet and green, and fine music was rendered by the Worcester orchestra. The members of the class were Gladys Gage, Ruth Gove, Neal Henry, Elmer Mereness, Barnard Skinner and Laura Wayman, and they chose for their motto "Qualitas non Quantitas."

The valedictory address was given by Ruth Gove, the salutatory by Elmer Mereness, class history by Laura Wayman, class poem by Barnard Skinner, class song was pleasingly sung by Gladys Gage, and the class essay on the motto was given by Neal Henry. Besides each member appeared on the program the second time, delivering essays and orations which showed much thought. A beautiful violin solo, "Rondino," by Kreiser was played by Neal Henry.

J. S. Waterman, president of the board of education, presented the diplomas.

The commencement activities closed with the Alumni banquet, held in the Grange hall Friday evening. After feasting on many good things to eat, Dr. Miller, principal of the High school, acted as toastmaster and in an easy, humorous way took charge of the program.

Bernice Finch, class of '16, favored the company with several selections on the violin, which were heartily enjoyed by all. Mrs. C. L. Goodell, class of '06, beautifully sang "The Nightingale and the Rose," and Miss Naomi Jones, class of '15, rendered two vocal solos. Piano solos by Miss Elizabeth Wright, class of '11, and Miss Marion Starkweather, class of '15, were heartily applauded.

J. S. Waterman answered to the toast, "The Board of Education," giving pathetically the troubles of that organization.

Joseph Bellaw, class of '14, spoke of the "Past, Present and Future," which showed his poetical talent. "The Has Beens" were recited by Mrs. Charles Martin, a former teacher in the school, and Miss Gladys Gage, class of 1920, spoke in behalf of the "New Members." "The H. C. L." was given by Miss Emma Roseboom, class of '14, who gave several meanings to these abbreviations, ending by saying that she hoped none of the members would ever be classed as Hopeless Class Leavers.

## News Notes.

Dr. and Mrs. L. T. Genung and daughter, Dorothy, of Ithaca, are visiting relatives and friends here. — Work has begun on the concrete walk which will take the place of the old board walk on Depot street. This is a most needed improvement. — Rev. C. L. Herrick returned today from Buffalo, where he attended the meetings of the Northern Baptist convention. — A religious census of the town is being taken by a number of local canvassers. — Prof. Andrew L. Sloan of Newark, N. J., is visiting his parents, Dr. and Mrs. George A. Sloan.

## THE HIGH SCHOOL CRISIS.

It is not in the primary and grade schools of the country alone that there is a shortage of teachers, according to the United States Bureau of Education. The shortage is just as acute in the high schools, and with the opening of the new school year they will confront a condition which cannot fail to cause increased uneasiness. Of the high schools in the United States, 2,500 have answered queries submitted by the department. They say that they employ 65,537 teachers, and that they will require 17,275 new teachers in the fall to provide for the normal increase in enrollment; and to take the place of those leaving the schools there will be a total of 25,973 such places to be filled before the next school term begins.

Replies from 222 colleges and universities show that they will graduate 10,650 men and 9,231 women, and that of this number 1,630 men and 4,742 women will take up the work of high school teaching. On this basis it is estimated that only 10,620 members of the graduating classes of all the higher institutions will accept positions in the high schools. This leaves 15,355 places to be filled in ways not now apparent, or that number of classes will be without instruction. It may be possible to induce other graduates to enter the work and some former teachers who have withdrawn may return; but this will mean that higher pay and improved conditions otherwise must be offered. The only alternative is to employ persons below the standard prescribed by experience and general practice.

How serious the situation is may be judged by the fact that the threatening shortage is twice as great as the number of teachers in all of New England, and greater than the number of such teachers in New York and Pennsylvania combined. School boards everywhere are advised by the department to lose no time in strengthening their forces in anticipation of the expected difficulties. Salaries must be raised, and improved conditions must be created, in order to hold as many as possible of the teachers now in the service and to attract desirable recruits. All this must be done, not for the benefit of the teachers, who are evidently able now to care for themselves very well indeed, but for the sake of the children who are the sufferers when good teachers leave the service.

## NO SUGAR SHORTAGE.

According to a statement sent out this week by the Department of Agriculture, there is no actual shortage of sugar in the United States. In spite of a conceded world shortage of this product, and a decrease of four hundred million pounds in the domestic production, there has been no shortage, says the statement, 15 percent more sugar during the current year in the United States than in former years. In fact, a greater supply of sugar than ever before has been handled in this country during the past few months, with net imports a billion pounds or 15 percent greater than in any previous like period. "It is obvious, therefore," the report continues, "that there has been no actual sugar shortage this year. The difficulties which have been encountered have arisen from the inability of the consumer to secure his share of the supply. Unless enormously increased amounts have been consumed, the trouble must be laid to hoarding and it is very evident that large quantities are being held for future use both by households and commercial concerns."

During the past fifty years, the sugar consumption in the United States has steadily increased at the average annual rate of one pound per year; and the average yearly per capita consumption for all purposes is now between 55 and 56 pounds. This compares with a per capita consumption of 55.9 pounds per capita in 1889. The increased consumption of sugar by the soft drink, candy and ice cream industries during recent years has helped raise the total average, but to what extent is not known.

The department urges that it would be wisdom on the part of housekeepers to can the usual amount of fruit and vegetables this year, even if part, or all of the fruit must be canned without sugar. From all indications, sugar will be more abundant next winter, when the fruit is on the table. There will apparently be an increased acreage of both cane and beet sugar this year in the United States, Cuba and other countries in the northern hemisphere. The rise in the price has encouraged increased plantings of both.

## Speed Test on Belden Hill.

With Secretary Harry E. Harkness of the Binghamton Automobile Club as observer, an attempt will be made this week by representatives of the Stowen Motor company to break the speed record over Belden Hill, which now stands at 50 miles per hour. Agents of the Essex car all over the country are making a special Essex drive this week, with contests similar to that on Belden hill in many places in the country.

## FARM CROPS IN THIS LOCALITY.

Early June Was Discouraging, But Conditions Now Look Better.

June has been a discouraging month for the farmer this year. Just at the time when his crops should have been receiving their best growth, three weeks of almost continual dry weather almost doomed his hopes to failure. The depth of the snow during the winter and its late melting kept the ground soaked with water until late and the workmen could not get on it when they should have been plowing and sowing. As a result, all crops are late. The corn crop was very late in starting and is thought to be very short. For this reason many farmers sold their dairies early and will be short if the crop should turn out well.

Corn as a rule is growing well but many farmers complain that it failed to come up as it should and that they are bothered by worms and birds to some extent. The potato crop is late and few farmers have been able to cultivate much as yet. They report prospects of a small crop. It is a noticeable fact that oats and other grain crops are in a questionable condition. It was almost impossible to sow at all in some places because of the water, but the crop is good where it could be reached. In many places, the farmers expect to cut them green to help on the pasture and in others it is found that they gave up sowing altogether and planted some later crop, which fact is likely to cause a scarcity of grain next winter. Otsego and Delaware counties have nearly the same weather conditions. Both have felt the shortage of rain and both will be affected by the conditions in other counties and the city will also feel a shortage of produce.

## Do You Know That?

Pulmonary tuberculosis or consumption is communicable, preventable and curable.

Pulmonary tuberculosis, or consumption is a disease of the lungs. It is taken from other people who have it, and it is not simply caused by a cold, although a cold may make it easier to take the disease. The matter coughed up and sneezed out by people who have the disease is full of living germs, too small to be seen. These germs are the cause of tuberculosis and when they are breathed into the lungs of weakened people, they set up the disease. Don't get tuberculosis yourself. Keep well as possible for the healthier your body, the harder for the germ of tuberculosis to grow therein. To keep healthy, observe the following rules: Don't live, study or sleep in rooms where there is no fresh air. Fresh air and sunlight kill germs which cause disease. Don't live in dusty air. Keep your rooms clean. Get rid of dust by cleaning with damp cloths and mops. Don't sweep with a dry broom. Keep at least one window open in your bedroom at night and air the room during the day. Don't eat with soiled hands. Don't use a public drinking cup or a public towel. Don't keep soiled handkerchiefs in your pockets. Keep clean, both your body and clothes. Don't neglect a cold or a cough, but go to a doctor or a clinic.

## COMMENTS OF THE PRESS

### Growing the "Hoodlum."

Put a boy born of gentle white parents among Indians and he will grow up like an Indian. Let a child be born of criminal parents, have a setting of morality, integrity and love and the chances are that he will not grow up into a criminal, but into an upright man. If a child with a vicious temper be placed in an environment of peace and quiet the temper will change. I am as certain of these great truths as I am of the great truths in the plant world. Put a plant into close quarters without sunshine and room to grow normally and you'll get a hoodlum plant!

The only place hoodlums grow is in dark, dry, cramped surroundings. Change those surroundings; put a little love and care and sunshine into their lives and you get opposite results.—[Luther Burbank in Association Men.]

### His Past.

Just so soon as a man is nominated for something, investigators begin to dig up horrible stories of his past. It seems to be very well established that Senator Harding used to play a cornet in the village band. It may be shown that he is secretly addicted to the ukulele.—[Chicago Daily News.]

Where Would Bolting Bryan Go? Threats of Mr. Bryan's bolting do not seem to alarm the Democrats at San Francisco. If Mr. Bryan should bolt, where would he go? And who would have him?—[Albany Argus.]

### The Sugar Flea.

Every time the government authorities make an assault on the price of sugar it jumps a little higher, perhaps to get out of the way.—[Detroit Free Press.]

### Understood.

Lady of the House to New Cook:—But I want to tell you right now, I'll have no love affairs.

Girl—Yes, ma'am; I can understand that very well—at your age.—[Boston Globe.]

### Too Alert.

"Are these persons occupying front-row seats the so-called tired business men?"

"I doubt it," replied the sarcastic patron. "If they were really tired they couldn't sit through this 'show without falling asleep."—[Birmingham Age-Herald.]

### No Sugar Tooth.

Conversation about Florida's enormous sugar-producing capacity continues. But conversation cannot be made into sugar.—[Exchange.]

### The Impossible.

It should be possible to make taxes just, but it is not likely that they will ever be made popular.—[Chicago News.]

## LANGUAGE FOR MEN OF AFFAIRS.

James Melvin Lee Edits Second Volume Entitled Business Writing.

There has recently been issued from the press of the Ronald Press company of New York the second of a series of books entitled "Language for Men of Affairs," which is devoted to Business Writing. The editor of this volume is James Melvin Lee, director of the Department of Journalism of New York university and a former president of the American Association of Teachers of Journalism. Mr. Lee is the author also of "History of American Journalism," "Opportunities in Newspaper Business," "Newspaper Ethics" and other volumes well known among members of the craft.

The new book is a large one of over 600 pages. Among the contributors are John Mantle Clapp, Sterling A. Leonard, head of the Lincoln school of Columbia university; Thomas Conington, author of "Business Law"; Edward H. Gardner, associate professor of Business Administration, University of Wisconsin; Dorsey W. Hyde Jr., librarian of Municipal Reference Library of New York city, and others. The volume shows careful preparation and is well filled with valuable suggestions calculated to aid one who desires to write effectively business letters and reports and advertising copy. The book is having a liberal sale and its editor is to be congratulated upon its success.

## Delhi Man Fined \$1.

Samuel Pendel of Delhi was fined \$1 by Judge Huntington in city court yesterday for leaving his motor car standing out too far from the curb.

Having sold my business, I would appreciate it if all accounts were settled by July 20, in order that I may balance by books before retiring. George Mann, Oregon.

## DISTRIBUTE VICTORY MEDALS.

Local Service Men Will Soon Be Able to Get U. S. War Tokens.

Former service men living in Oneonta and vicinity are entitled to service medals in connection with their work in the World War, and the local army recruiting station at the post office soon will be prepared to accommodate all living in this city. Major Folz, of the Albany recruiting headquarters, called on Sergeant Zilkow, local officer, Monday, to talk over the plans for distributing the medals. He left without stating definitely what course would be taken, but said he would notify Sergeant Zilkow shortly. It is anticipated that the local army station will be given a supply of application blanks, and former service men entitled to the medals can fill these blanks out and send them in to army headquarters, following which the medals will be mailed to them.

Distribution was begun throughout the country on June 21 and will be made at the rate of \$5,000 a day.

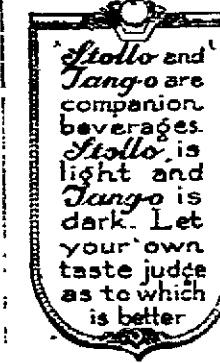

The medals are divided into three classes. A medal assembled without clasp will be distributed among the men who served in the United States only between April 6, 1917, and Nov. 11, 1918; a medal assembled with one clasp will be distributed among troops who served overseas but did not go into battle; a third medal with a clasp for each important engagement in which the recipient fought, will be distributed among the fighting troops. The war department has designated these souvenirs Victory medals.

Price is an important consideration with many people. And it is one of the reasons for the large sales of Junata brand margarine. But this delicious article of food is also ordered by those who consider quality above all else.

## UNLUCKY DAY FOR S. N. Y.

Petty Thieves Ransack One Car, Another Is Detailed Taking Switch, and Heavy Storm Works Havoc With High Tension Wires.

Although the number "29" is not supposed to be one of ill omen, as the superstitiously inclined so brand "13," yesterday nevertheless proved to be a rather unlucky day for the Southern New York railroad, as during the 24 hour period, one of its cars was ransacked by sneak thieves, another was derailed at West Oneonta and one man slightly injured, and conditions on the northern end of the road were disrupted because of the severe wind and rain storm of the afternoon and evening.

The south-bound train due in Oneonta at 4:30 yesterday afternoon was derailed in the coal yards at West Oneonta at about 4 o'clock. While taking the difficult switch above the station, the rear truck dropped off the rails and the car was tipped to quite an angle, but did not fall over. Several of the passengers were slightly shaken up, and one man suffered bruises when a suitcase he had placed on the rack above his seat was jarred off and fell down on him. The accident caused some inconvenience to traffic as passengers had to be transferred over the place. Although neither the trolley nor tracks were damaged, it required some time to get the car out of its hard-to-get-at position and it was not until 7 o'clock in the evening that it was restored.

The heavy wind and rain storm of the afternoon raised havoc with the high tension wires of the company along the northern part of the line, the wires becoming tangled up and causing short circuits. As a result, most of the villages beyond West Oneonta were without telephone and lighting service last night. Trees were blown across the wires at Richfield Springs and Laurens and things were generally "mussed up." At a late hour last night, normal conditions had not yet been restored but today it is expected that all will be well again.

The Southern New York railway's main line car No. 51, which reaches Oneonta from Herkimer shortly before noon and starts on the return trip at 7:30, city time, was ransacked sometime during Monday night while it was standing in the Herkimer yards for the night, but the damage caused will probably not total over \$10.

When Postal Clerk George Simpson of Herkimer entered the mail compartment of the car yesterday morning, he noticed that things were considerably shaken up and upon further investigation discovered that his suitcase had been opened and a fountain pen and a few dollars in coins removed. He then asked Motorman Haviland of Hartwick and Conductor Harrier of Herkimer whether they had missed anything and upon looking over their compartments they found that some money and clothing had been carried off. Altogether, the loss will not be much over \$10, however.

The Utica headquarters of the state constabulary were shortly notified of the robbery and they have their troops on the watch for the thieves. It is thought that the perpetrators of the crime were among a gang of young men which recently had been noticed about the Herkimer yards. They gained entrance through one of the doors of the car which it is said was not locked, and overturned and ransacked things generally.

## To the Traveling Public.

I wish to announce that I have purchased of the White Motor Truck company of Cleveland, Ohio, one of their special bus jobs (just out this year). This bus has a seating capacity of 16 people and is equipped with 36-inch pneumatic tires. It has 45 horsepower and a speed of 40 miles per hour. I expect this bus to arrive in a very few days, and it will be put on the Stamford-Oneonta bus line and will make two round trips daily, except Sundays, during the summer. The bus will leave Stamford at 7:30 a. m. and 1:30 p. m., and will arrive in Oneonta at 9:30 a. m. and 2:45 p. m. Leave Oneonta at 11 a. m. and 5 p. m., arrive in Stamford at 12:15 and 3:25 p. m., new time. I wish to state further that the mail will be carried on the down trip in the morning, but will be carried on a separate car in the afternoon, so there will be no tire-some waits as there have been previously. I will connect with the D. & H. trains both morning and afternoon and will meet the 5:30 p. m. train westbound, at Stamford. I will give special rates to theatre parties and parties wishing to make Sunday trips. Give me your support and I will give you service. Yours respectfully, O. J. Buck, Harpersfield, N. Y.

## Herrieff Says:

When The Oneonta Star said something about the repairs to the trolley track in front of Herrieff's Clothes shop being annoying to motorists, they evidently hadn't been watching us trying to move a stock of goods over this particular spot. All I've got to say is that when there happens to be an obstacle in the way I want to enter yours truly and all my clerks, and make a bet on the result.

## TO ENTERTAIN THIS EVENING.

Young Women of First Baptist Church, Seek To Aid Near East Relief.

For the benefit of the Near East Relief, the Young Women's Missionary society of the First Baptist church will give an entertainment entitled, "The Modern Missionary Sewing Society," in the church this evening, commencing at 8 o'clock. A musical program has also been prepared and an evening of real enjoyment is promised all who attend. As the entertainment, which is under the direction of Mrs. L. S. Darling, is for the benefit of a worthy cause, it is hoped the public will extend a generous patronage. No tickets are on sale, but a silver offering will be taken during the evening.

The cast of characters for the play is as follows:

Miss Chapter, Mrs. Jesse Van Derhule; Miss Flutter, Mrs. Charles Hottel; Mrs. Knowall, Mrs. Cecil Parker; Mrs. Simple, Mrs. A. J. Leonard; Mrs. Wise, Mrs. A. C. Miller; Miss Pert, Mrs. D. H. Woodward; Miss Short, Mrs. C. A. Taylor; Mrs. Green, Mrs. Oscar Beams; Mrs. Jones, Mrs. L. H. Gosser; Mrs. President, Mrs. L. Westcott; Miss Small, Mrs. John Bowen; Miss Truthful, Miss Dora Knapp; Miss Gossip, Miss Helen Merrill; Miss Brown, Miss R. Sandell.

The musical program will be as follows:

Piano Duet, Miss Barnes and Miss Thurston.  
Reading, Myrtle Byam.  
Vocal Solo, Newton Darling.  
Vocal Selection, Olive Miller.  
Piano Duet, Miss Hallock and Miss Miller.  
Piano Solo, Stewart Pratt.

## Sunday School Classes Have Contest.

For the past month, a contest has been going on between the Accowanna class of young ladies and the Alpha class of young men of the United Presbyterian Sunday school as to which could show the best attendance and bring in the largest collection for the month. As a result, the classes are a tie, the young ladies showing the best attendance and the young men the largest amount of money. Thursday evening, they will both share a motor ride to Milford, where they will partake of refreshments and enjoy a general good time.

## Choir Boys in Camp.

Rev. R. A. Forde, of St. James' Episcopal church, is camping at Treestops camp on Goodyear lake. He is accompanied by the choir boys of his church and it is expected that they will remain for a week or more before returning to the city.

## Notice.

Beginning July 1 and until further notice, our bottled, pasteurized milk will be 13c per quart and 7 cents per pint, our coffee cream 18c a half pint, extra heavy cream 22c a half pint. Oneonta Dairy company.

## NEGOTIATING WAGE SCALE

TROLLEY COMPANY AND EMPLOYEES FAIL TO REACH AGREEMENT.

Company Presents Counter Proposal to That Offered by Men with Material Changes—Men Name Committee to Confer with Officials of Company.

Negotiations are pending between the Southern New York railway officials and the officers of Division No. 948, Amalgamated Association of Street and Electric Railway Employees, recently organized for an increase in wages. Following the presentation of a proposed agreement by the officers of the union, the company presented a counter proposition which was considered at a recent meeting of the men with the result that a committee was appointed to confer with the officials of the railroad. It is thought not unlikely that the men will bring into the negotiations a representative of the association.

The wages asked by the men for motormen and conductors were as follows: First six months of service, 46 cents an hour, second six months, 48 cents an hour; after one year's service, 50 cents an hour. For work on freight trains, work trains and snow plows 7 cents per hour additional.

The company's counter offer was as follows: First six months, 35c; second six months, 37c; second year, 39c; after second year, 41c.

The men asked for an increase of 13 cents an hour for their employees, members of the association, and the company proposed an increase of 10 per cent for all employees.

The company agrees to meet and treat with the properly accredited officers of the division, but a request that the company recommend that all employees become members of the association, coupled with a statement that the company prefers to deal with its employees through the association does not meet with the approval of the company.

The agreement that the road and shops be operated on a ten-hour basis is satisfactory to both, but the company would provide that overtime work to be paid for at time and a half rate be between the hours of 10 p. m. and 6 a. m.

The proposed agreement provides for the arbitration of any differences between the company and the association, but the company would exclude from this agreement "matters of wages, hours and other questions affecting operating costs."

The agreement as approved provides that free transportation shall be provided over the company's line for employees and members of their families.

### OPPOSING CARNIVALS.

Binghamton Common Council Asked to Prohibit Them in Future.

Application recently made in Binghamton for a license for a carnival promoted by a traveling company and for the benefit of one of the organizations of that city has resulted in the proposal that the council bar all carnivals in the future. Another suggestion is that the local organization asking for a license be required to give a guarantee that nothing objectionable will be staged on the carnival grounds. Action has been deferred, but the matter is destined to come before the council again in two weeks.

The discussion is of interest in this city, where several carnivals have been staged and some where objectionable features have given the police much anxiety and trouble. It might be well to have some definite decision reached here when no application is pending and when there would not enter the question of opposition to any local organization.

### Leaves Today for Conference.

Rev. E. Howard Brown, pastor of St. Paul's A. M. E. Zion church, leaves this morning for Jamestown, where he attends the annual meeting of the Western New York conference of the A. M. E. ### REV. DR. GEO. P. ECKMAN DEAD

Prominent Clergyman of Wyoming Conference Expires Monday — Former Editor of Christian Advocate — Well Known in Oneonta.

The Methodist Episcopal church in the United States loses one of its most distinguished clergymen in the death of Rev. Dr. George P. Eckman of Scranton, Pa., who was stricken with apoplexy at about 5:30 o'clock Monday afternoon just as he had concluded an address before a meeting of the general citizens' committee on miscellanea, which was being held in the Scranton Board of Trade auditorium. His last words, says the Scranton Republican of yesterday morning, were a virtual challenge to the coal companies in behalf of the people of the community, and he died as he probably would have wished to die, in the service of humanity. He lived only about ten minutes after he was stricken.

Dr. Eckman was a native of Goldsboro, Pa., and received his early education in Scranton. He was a graduate of Wesleyan university and of the Drew Theological seminary. He was the editor for several years of the Christian Advocate, the leading journal of his denomination, and was the author of several books, one of them being a widely read work on the Millennium, which is regarded as one of the best works on the subject ever written. He had been mentioned to some extent in connection with a bishopric but had said that he did not aspire to the position, preferring his work as pastor.

Following his graduation, Dr. Eckman joined the Newark, N. J., conference in 1886, serving churches in that state for ten years. Later he was transferred to the New York conference and from 1897 to 1912 was pastor of St. Paul's church in New York city. He was editor of the Advocate from 1912 to 1914, and on his retirement from that position went to Scranton as pastor of the Elm Park church, where to his death he remained. He is survived by his wife and by one daughter, Miss Margaret Eckman, who is a student at Wellesley college.

Dr. Eckman is well known in Oneonta, where on two different occasions he very acceptably addressed the Men's club of the First Methodist Episcopal church. His last visit being the past fall. He was a man of fine intellect, of clear spiritual vision and of winning personality. His death in the prime of his manhood will be deeply regretted throughout the church at large, but perhaps the loss will be felt most deeply in Scranton, where his boyhood was spent, and to which he returned as to his old home.

No announcement as to the date of Dr. Eckman's funeral has yet been made.

### Surprise for O. A. Hubbell.

Monday evening, at the Elm Park Methodist Episcopal church, a complete surprise was given for O. A. Hubbell, who has been superintendent of the Sunday school since the church was organized. More than 100 were present. A program consisting of recitations and music was given and delicious light refreshments were served. In recognition of his work a clock from the men of the church was presented by Rev. J. C. Johnson, and Mrs. Luther Orr presented a ring from the ladies.

### MRS. WILLIAM H. BEEBE.

Resident of Oneonta for Six Years Dies Suddenly at Laurens Home.

The funeral of Mrs. William H. Beebe, who died Monday morning at 3 o'clock on the Beebe farm near Laurens, will be held from her late home Thursday afternoon at 2:30 o'clock. Rev. Norman S. Burd of Oneonta will conduct the services and burial will be in the West Oneonta cemetery.

Mrs. Beebe's death occurred very suddenly Monday morning. She had been in her usual good health the day before but at the hour stated, she gave a gasp as if in distress. A physician was summoned as soon as possible, but he was unable to relieve her and death came soon afterward. Acute rheumatism of the heart was assigned as the cause of death.

Mrs. Beebe, whose maiden name was Harriet Rose, was born in Scranton, Pa., on January 15, 1855, the daughter of Mrs. and Mrs. Lewis Rose, and spent her early life in that city, where she was married to Mr. Beebe, also of Scranton, on March 2, 1884.

They continued to live in Scranton until six years ago, when on account of Mr. Beebe, who was a trainman on the Delaware and Hudson, being transferred to this division, they came to Oneonta to live and took up their home on Miller street. Only two months ago, Mr. Beebe purchased the Will Gardner farm near Otsdawa village, which he now conducts, and the family left Oneonta. Mrs. Beebe was a member of the West End Baptist church and while she made her home here was active in its work. She devoted her life to the home and family and there her presence will truly be missed. Much sympathy will be extended to the sorrowing family, who could ill afford to lose a wife and mother so devoted.

Mrs. Beebe is survived by her husband, her mother, Mrs. Carrie Sayres of Scranton, Pa., and by five children, Ruth, 15; Alice, 13; William, 11; Charles, 5; and Cora, 15 months; also by one sister, Mrs. George Indian of Scranton.

Sam & Sooragelion Co. will conduct in the near future, a shoe shining and repairing parlor in the basement of the Oneonta hotel. 7t

## WOMAN SEEKS SUNKEN RICHES

Salvages Cargoes From Vessels  
That Have Gone Down in  
Great Lakes.

### MYER GAVE HER THE IDEA

Mrs. Margaret Campbell Goodman Has  
Recovered Fortunes From Wrecks  
on Floors of Inland  
Seas.

Cleveland.—Mrs. Margaret Campbell Goodman, the only woman salvager in the world, has regained a fortune which went down with the steamer *Pewabic*, in Lake Huron, 55 years ago. Succeeding where many men had failed, Mrs. Goodman has broadened her scope of work until she now has contracts to raise sunken fortunes in almost every sea.

Mrs. Goodman spent her early life in Mount Pleasant, Mich., and after her school days she went to Toledo, O., her present home. There she became interested in diving suits, after witnessing an exhibition of deep-sea diving in which the diver went down 321 feet, remaining under water for 45 minutes.

#### Treasure on Sea Bottom.

This feat of deep-sea diving convinced her that scouring the floor of the sea for sunken treasures would be a profitable business. Remembering the loss of the *Pewabic*, Mrs. Goodman, after much discouragement, formed a stock company. She went to Alpena, Mich., and found Capt. John Persson, who had stood with his father, keeper of the lighthouse in Thunder Bay, and watched the ship founder.

Later, Mrs. Goodman located George P. McKay, the captain of the *Pewabic*. Captain McKay was living in Cleveland and showed Mrs. Goodman the manifest of the lost vessel. It showed that the *Pewabic* carried in her hold tons of copper, worth \$200,000 or more, and several hundred tons of pig iron. In the ship's express box was \$50,000 of "shin plasters."

The work of searching for the *Pewabic* was begun in 1916. In the first season's work, the divers took out 100 tons of copper and 100 tons of pig iron. Many interesting relics were discovered which, when possible, were forwarded to the relatives of the sailors who had lost their lives a half century ago. When the treasure chest of the ship was brought to the surface, the "shin plasters" were found to be water-soaked and valueless.

Considerable work was done in 1917, until the needs of the government, at war with the central powers, called a halt to all salvaging operations.

#### Salvage Cargo of Logs.

Mrs. Goodman's next contract is to salvage a schooner that sank in Lake Erie in 1864. She has a release from the owners and will begin work about July 1. This schooner carried a cargo of black walnut and white oak logs, chained to the deck, and Mrs. Goodman expects no difficulty in salvaging the cargo.

Formerly a newspaperwoman, Mrs. Goodman has made a success of a business which is as interesting as it is dangerous. She dislikes being described as a woman diver, because she has never gone under water herself, and she says she does not expect to do so unless for the purpose of increasing her own scientific knowledge.

### LURE THAT TEMPTED MANY

Adventurers as Well as Dreamers  
Sought Vainly for the Fabled  
Fountain of Youth.

In that far-off, never-to-be-discovered country in that region which has shifted and changed just as men's minds alter and expand, in that mystic Bimini was thought to be the spring which, if tasted by mortals, would assure them immortal youth. On that island bubbled a fountain whose waters healed all manner of sickness.

The lure of the Fountain of Youth seized upon not only the dreamer, but caught the fancy of the bold adventurer, Ponce de Leon, and the redoubtable De Soto sought to taste of its life-giving fluid, and it is perhaps the mystery and wonder, coupled with desire, that brought about the discovery, not of the fountain, but of that part of our country known as Florida.

It was on the 27th day of March, 1513, that Ponce de Leon sighted land which he thought was an island. On April 8, which was Easter Sunday, he took possession of the country in the name of the king of Spain and called it *Pascua Florida* in honor of the day. He explored the country and was obliged to battle with the Indians, and after many adventures, which included another voyage in 1521 to found a colony, this intrepid navigator succumbed to a wound inflicted by a savage, and died while his vessel was making for the island of Porto Rico.

#### The Art of Not Hearing.

The art of not hearing should be learnt by all. It is fully as important to domestic happiness as a cultivated ear, for which both money and time are expended. There are so many things which it is painful to hear, so many which we ought not to hear, so very many which, if heard, will disturb the temper, corrupt simplicity and modesty, detract from contentment and happiness, that everyone should be educated to take in or shut out sounds according to his or her pleasure.—Exchange.

#### Och, Murder!

"Both these samples smell like cheap goods to me."

"Cheap! Those whiskies are the best on the market. They're both over ten years old."

"Yes, they're old enough to have better scents."

#### DRUNK BLAMES HIMSELF.

George Leroy of Gilboa, Who Had  
Case of Beer, Pays Fine of \$6.

The unidentified man who was arrested late Friday afternoon while attempting to pilot his horse and wagon along Hudson street, and who made little headway as he was too busy keeping watch of the case of beer he had under his wagon seat, was fined \$6 in city court Saturday morning by Judge Huntington. He was so intoxicated after his arrest that he was unable to give his name, but on Saturday said he was George Leroy of Gilboa. He pleaded guilty to the charge of public intoxication and paid his fine. Judge Huntington had sentenced him to 90 days in the county jail for his conduct but this was suspended.

Leroy's horse and rig, which were confiscated with himself and the bottles of beer, were kept in a livery stable while Leroy sobored up. He went after his outfit after being released but wended his way home by way home minus the much-deared beer, which was confiscated by the police.

Another drunk was captured last evening and put in the cooler for the night. He was Orrin Johnson of Oneonta, who was arrested on Gas avenue near the mill race by Patrolman Cross. He will be arraigned before Judge Huntington this morning.

For Sale.—Having had over 30 years of active professional and real estate work, I offer a part or all of my real estate for sale so as to give more attention to my increasing office practice. ## THE FRUIT STAINS PROBLEM

Some Ways of Removing Discolorations from Table Linen and Garments—Iron Rust Also.

With the coming of summer, the problem of removing fruit stains from table linen and garments is bound to perplex most housekeepers. Of all stains these are, fortunately, said to be the most easy to remove.

Spreading the stained portion of the material over a bowl and pouring boiling water from a height so as to strike the stain with force will usually remove it. Camphor, likewise, is used with good effect. Some fruit stains, however, are more obstinate than others. Glycerine sometimes helps in removing peach stains.

Iron rust may be removed in various ways. One way which is effective, with white materials is to wet the stained part with borax and water or with diluted household ammonia, and spread it over a bowl of boiling water. A 10 per cent solution of hydrochloric acid, which may be obtained from a druggist, poured drop by drop on the stain until it brightens, and then immediately washed out with water, is also used. A 10 per cent solution of oxalic acid may be similarly employed. In either case, a second application may be necessary. A mixture of salt and lemon juice rubbed into the rust stain and placed in the sun sometimes will remove the rust. This is, however, a much slower process.

### Ammonia for Grass Stains.

A solution of ammonia and water or alcohol and water will remove grass stain. Either solution should be treated on a sample of the material and its effect on the color noted before it is applied to the garment.

Mildew may be removed by soaking the stain in a weak acid such as lemon juice or vinegar and exposing it to the sunlight, or by wetting it with a paste of soft soap and pulverized chalk before exposing to sunlight. Where the mildew is very bad, a bleaching agent, such as Javelle water, may have to be used.

Scorch from an over-hot iron may be removed by soap and water, or by dampening the spot with water and exposing to sunlight for a day or longer. A slight scorch may be rubbed away with a bread crust.

All stain removers when used on poisonous should be plainly labeled and kept out of the reach of children.

A trial test should be made of any reagent by placing a drop of it on an inner seam of the garment to note its effect on the color and texture of the fabric from which the stain is to be removed.

### PLANNING TO BUY OWN FEED.

Farmers, at Mt. Vision Monday, discuss G. L. F. Exchange Movement.

Many farmers of Otsego county, at a meeting of their representatives held at Mt. Vision on Monday afternoon, voiced their intention to back the grange, league, farm bureau exchange. This action was taken by the 145 men present, who were grange masters and officers, Dairymen's league officials, and farm bureau committee men, representing practically every community in Otsego county. The G. L. F. (Grange League Federation) exchange, backed by the New York State grange, the Dairymen's league, and the State Federation of Farm Bureaus, has taken over the business of the New York Grange exchange and entered the wholesale feed, seed and fertilizer business. Further details of this movement are yet to be worked out by the board of directors.

At Monday's meeting 54 of those present subscribed for a total of 500 shares at a par value of \$5 per share. Otsego county's quota is \$25,000. Of the men present, one man from each community volunteered to take charge of the campaign in his community, and others were appointed to take charge in communities not represented.

### Funeral of Mrs. Harriet Kenyon

Funeral services for Mrs. Harriet Kenyon were held at her late home, 92 Center street, yesterday afternoon at 2 o'clock, with her pastor, Rev. Dr. C. S. Pendleton, of the Main Street Baptist church, officiating. There was a large attendance of friends and neighbors. There was a procession of floral tributes, including pieces from the local branch of the Woman's Christian Temperance union, of which Mrs. Kenyon was a charter member, and from neighbors and friends.

Two hymns, "Face to Face" and "Does Jesus Care?" were appreciatively rendered by Dr. Pendleton and Mrs. Jerry B. Wilson. After the services the body was taken to Riverside cemetery for burial.

Harold Roberts of Scottsbluff, Walter Roberts of Waton, and Mr. and Mrs. Frank Taggart of Norwich Junction were present at the funeral services.

## CAMP BLUEFIELDS TO OPEN

Only Nominal Expense Entailed for Cadets Seeking Combined Outing and Military Training—Camp at Blauvelt Opens July 3.

Attention is invited to a summer camp a late for boys, to be opened Saturday, July 3, 1920.

Through the generosity of several gentlemen interested in boys, the opening of Camp Bluefields, Blauvelt, New York, has been made possible. The camp is equipped with permanent buildings and tentage for the accommodation of one thousand or more, well located on high ground, with excellent spring water and facilities for exercise, instruction and amusement. Twenty-two miles from New York on the West Shore railroad.

In the absence of a state appropriation, it is necessary to cover the actual expense by having it paid by those who use the camp, which means railroad fare to and from Blauvelt, subsistence while in camp at not to exceed \$1.00 a day, each boy to supply himself with suitable clothing for the season for comfort and weather protection. The proposed program includes a well-ordered day, with military training, general athletics, games and sports swimming, tennis, baseball and basketball contests, together with helpful recreation features that will be constructive, entertaining and attractive.

It is particularly desired to meet the need of the employed boy and provide for his vacation time, with a minimum of requirements. The prescribed conditions are one week's notice at the time of enrollment, a deposit of \$2.00, to be placed to the credit of the applicant, a statement of the length of camp, giving dates, that he will be in camp, to insure appropriate advance provisions.

The camp will be conducted by competent instructors and directors, under the personal supervision of Brigadier General William H. Chapin, chief supervising officer, acting with the authority of the Military Training commission, state of New York. Application should be made as early as possible to Captain Henry C. Perot, military secretary, Park avenue and 34th street, New York city. Further information can be obtained from Attorney Henry D. McLaury, who had charge of the military training in this country the past season.
